

Privacy Policy of VitalHub DOCit Mobile App

Policy summary

The VitalHub DOCit App does not store or collect User Personal Data.

Full policy

Operation of VitalHub DOCit

Information we collect

The only information that is collected for use by the App is the VitalHub username and password. These values are not stored locally and are only used to authenticate with the VitalHub Server.

Information collected by Users

In the operation of the App the user may generate or request content that may contain personal health data about third parties. This data is only held in memory when required and is never persistently stored on the mobile device. All communication with the VitalHub Server is encrypted and sent over an encrypted communication channel. No personal health data is persistently stored on the VitalHub Server. Data is stored in and retrieved from third party EHR or EMR systems.

Information not contained in this policy

More details concerning the collection or processing of Personal Data may be requested from VitalHub at any time. For more information, please contact info@vitalhub.com.

Third Party Systems

To determine whether any of the third-party systems VitalHub DOCit uses honour the “Do Not Track” requests, please read their privacy policies.

Changes to this privacy policy

VitalHub reserves the right to make changes to this privacy policy at any time by giving notice to its Users on this page. It is strongly recommended to check this page often, referring to the date of the last modification listed at the bottom. If a User objects to any of the changes to the Policy, the User must cease using this Application and can request that the Data Controller removes the Personal Data. Unless stated otherwise, the then-current privacy policy applies to all Personal Data the Data Controller has about Users.
